

Medical: All medical will be submitted to ARNG Surgeon through Medical Action Tracking System (MATS). Medical team will complete the process to DMPM. Once the DMPM process is completed the approval memo will be uploaded in MATS. The initiator of the MATS transaction will upload DMPM approval memo into ERM. At that time BNOPS will initiated the waiver workflow process in ARISS by selecting either **DMPM-Behavior Health** or **DMPM-Previous Medical Separation** (see red arrows in Figure below). No other waiver reason will be selected for a DMPM medical waiver.

Per SMOM 18-075 any DMPM waiver will require approval from ARNG Accession Suitability Office (ASO) before any processing can occur.

The POC for this guidance is MSG Bond, Thomas Waivers NCOIC or Mr. Theodore Ingram, ARNG Accession Suitability Office.
